

Climate Change Working Group Work Plan

**Fiscal Year October 1, 2023 through
September 30, 2024**

Action 1	Timeline
Develop a database suitable for Rapid Assessment Surveys (RAS) of marine bioinvasions and AIS Landing Blitz data and enter data into databases	Use open software to create databases 2023 Initiate data entry during fall and winter 2023/4 Enter data for RAS and AIS Landing Blitz 2024

Measures

Funding or other support needed

1. \$4,000 from NEANS Panel
2. \$4,000 in-kind services from volunteers and RAS scientists

1. Database available for RAS, AIS Landing Blitz, researchers, agencies and other stakeholders
2. Analysis of the data provide insights into movement of marine and freshwater species responding to climate change and the number, types and frequency of freshwater species on boats and hulls of ships that will be used by managers to reduce introductions.
